

**Remarks**

The Present Election is responsive to the Restriction of **June 23, 2005**. Reexamination and reconsideration of **claims 1-38** is respectfully requested.

**Summary of The Restriction**

The Office Action stated that restriction to one of the following inventions is required under 35 USC 121:

- I. Claims 1-33, drawn to a method of forming slots, classified in class 216, subclass 27.
- II. Claims 34-38, drawn to a printing head, classified in Class 347, subclass 47.

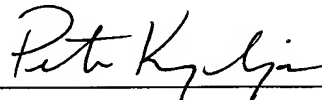

**Election**

Applicant elects to prosecute Group II claims 34-38, without traverse except for claim 6. The non-elected claims 1-5 and 7-33 are canceled by the present amendment.

Dependent claim 6 from Group I has been amended to recite a print cartridge and has been rewritten in independent form. Thus, applicant believes claim 6 now falls within the class of Group II claims. Applicant requests that the restriction for claim 6 be withdrawn.

Respectfully submitted,
